Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The information disclosure statement (IDS) submitted on 2-14-2006 was considered by the examiner.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 6 and 15-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Fukuda et al. (5,040,024) in view of Tanaka et al. (JP61-180252A).

Fukuda et al. teaches a toner cartridge having a tapered portion, a replenishment port, shutter, and cap.

Tanaka et al. teaches a lid for a cartridge that has a transparent window to indicate the color of the stored toner and a handle for easy handling of the cartridge.

The examiner takes official notice that it is known in the art to use recycled material to form a toner cartridge. It would have been obvious to one of ordinary skill in the art at the time the invention was made to use recycled material to form the toner cartridge to reduce the cost of the cartridge and to protect the environment.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to use the teaching of Tanaka et al. with the image forming device of Fukuda et al. to

easily obtain the color and the amount of the toner in a cartridge and to enhance the operability of loading the cartridge (abstract: lines 1-end).

Prior Art

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Amashiro teaches pertinent prior art.

Allowable Subject Matter

5. Claims 3-5, 8-12, and 14 are allowed.

Response to Arguments

6. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
